NBSE NOTIFIES SCHOOLS ON HEALTH OF CHILDREN WITH TYPE 1 DIABETES

The National Commission for Protection of Child Rights (NCPCR) is a statutory body formed under Section (3) of the Commission for Protection of Child Rights (CPCR) Act, 2005 (No. 4 of 2006) to ensure that the rights of children are protected especially those who are most vulnerable and marginalized. NCPCR has been mandated to inquire into the matters pertaining to violation and deprivation of rights and entitlements of children and to monitor the implementation of the Juvenile Justice (Care & Protection of Children)

OFFICIAL ORDERS AND NOTIFICATIONS

Act, 2015 (Section 109, JJ Act 2015), the Right to Education Act, 2009 and Protection of Children from Sexual Offences Act, 2012.

According to the data from the International Diabetes Federation (IDF) Diabetes Atlas 2021, India has the world's highest number of children and adolescents suffering from Type 1 Diabetes Mellitus (T1DM), with more than 2.4 lakh children and adolescents (age group 0-19 years) in South East Asia (SEA region). The T1D Index has estimated, however, that there are 8.75 million persons with T1D in India alone. Persons with T1DM require 3-5 injections of insulin every day, along with 3-5 blood sugar tests every day, for a lifetime. Absence or disruption of standard care affects their physical and mental well-being, and can even be fatal. Children and adolescents living with T1DM face several challenges, which are made worse by inadequate medical care and/or inadequate medical supplies.

As such, NCPDR has taken cognizance on the petitions received from parents of the children diagnosed with juvenile diabetes or Type-1 Diabetes in the country. Since children spend one third of the day in school, therefore it is the duty of the schools to ensure that children with T1DM are provided with proper care and required facilities.

In this regard, the Nagaland Board of School Education (NBSE) has notified all schools registered with the Board that in order to ensure health of children with Type-1 Diabetes, the following may be adhered to:

- A child with Type-1 Diabetes, who requires a mid-morning or mid- afternoon snack should be permitted by the class teacher to consume it.
- The child can participate in sports as advised by medical person.
- Children with Type-1 Diabetes giving their school exams and other competitive exams may be considered for the following:
 1. Permitted to carry sugar tablets with them.
 2. Medicines/fruits, snacks, drinking water, some biscuits/ peanuts/ dry fruit should be allowed into the exam hall and kept with teacher, and if required, these items shall be given to children during the examinations.
 3. The staff should permit the child to carry a glucometer and glucose testing strips along with him/her into the exam hall which may be kept with Invigilator/Teacher.
 4. The child should be permitted to test blood sugar and consume the above mentioned items as per requirements.
 5. Children using CGM (Continuous Glucose Monitoring), FGM (Flash Glucose Monitoring) and/or insulin pumps have to be given permission to retain these devices during exams as they are attached to the body of the said child. In case a smart phone is used as a reader, it may be handed over to the Teacher/Invigilator to monitor the blood sugar levels.

NBSE INFORMS ON EXAM REFORMS

The Nagaland Board of School Education (NBSE) has notified for information of all concerned that with the National Education Policy (NEP) 2020 laying special emphasis on transforming assessment for optimizing learning and developing the competency of the learner, the Board is taking steps to reform the examinations. The examinations will prioritize the basic learning outcomes and tests the core capacities/competencies, along with higher-order skills and application of knowledge in real-life situations.

As a consequence, the Board has revised the Question Paper Designs for all subjects for both Secondary and Higher Secondary Levels. Sample Question Papers based on the New Designs have been developed, which shall be effective from Class-IX Phase I & II Examinations 2023, HSLC Examination 2024, and Class XI Promotion & HSSLC Examinations 2024 for all subjects.

All schools registered with the Board have been directed to strictly follow the design and align the classroom teaching and assessments accordingly. The new designs should be implemented from the Mid-Term Examinations 2023.

The following booklets are made available in the NBSE portal www.nbsenl.edu.in:

1. Question Paper Designs and Sample Question Papers for Secondary Level and
2. Question Paper Designs and Sample Question Papers for Higher Secondary Level.

Hard copies of the booklets will be available in the Board's Office by the second week of May 2023.

Therefore, all Heads of Institutions have been requested to take note of the changes and instruct their teachers and students to make use of the resources given.

NAGALAND WELCOMES G20 BUSINESS MEET DELEGATES AND OFFICIALS

The State Government organised a programme to welcome and honour the G20 Business Meet delegates at the Capital Cultural Hall, Kohima on 4th April 2023.

Speaking at the programme, Chief Minister, Neiphiu Rio welcomed the delegates to the 'Land of Festivals,' stating that Nagas were known as war warriors in the past, and have now become peace warriors with the advent of Christianity in our land. He said that Nagas are rich in culture and traditions and the State still practices customary laws under the provision of Article 371(A) enshrined under the Constitution of India. Rio appreciated the Confederation of Indian Industry (CII) for extending their help to the State in hosting the G20 Meet.

Chief Minister Rio also released the Summit Booklet on the occasion. The guests were enthralled with music and dances including a variety of traditional songs and dances showcasing the vibrant culture of the Naga society.

NAGALAND HOSTS B20 CONFERENCE WITH FOCUS ON 'OPPORTUNITIES FOR MULTILATERAL PARTNERSHIPS IN AGRICULTURE & FOOD PROCESSING, TOURISM AND IT'

The inaugural session of the fourth and last G20 Business Meet in North East, focusing on Opportunities for Multilateral

Business Partnership in Agriculture, Food Processing, Tourism and Information Technology witnessed the participation of 60 (sixty) delegates from 27 (twenty-seven) countries, Central and State Government officials, business communities, local entrepreneurs and stakeholders, held at the State Banquet Hall, Kohima on 5th April 2023. Confederation of Indian Industry (CII) in collaboration with the State Government, Ministry of External Affairs and the Department for Promotion of Industry and Trade (DPIIT) are partners in this B20 Conference at Kohima.

The Group of Twenty (G20) is the premier forum for international economic cooperation, which plays an important role in shaping and strengthening global architecture and governance on all major international economic issues. India holds the Presidency of the G20 from 1st December 2022 to 30th November 2023. The Business 20 (B20) is a group that represents the private sector within the Group of 20 (G20) Forum, to provide a platform for the business community to engage with the G20 and to offer recommendations on policies that can support global economic growth and development. Confederation of Indian Industry (CII) is designated by the Government of India as the Secretariat for B20 under its presidency of G20 Forum.

The G20 comprises of 19 countries namely Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Republic of Korea, Mexico, Russia, Saudi Arabia, South Africa, Türkiye, United Kingdom, United States and the European Union

Delivering the welcome address, Chairman, Confederation of Indian Industry (CII) North East Council, Pradeep Bagla expressed hope that the B-20 Conference in

Kohima will not only carry the momentum forward but also set a new benchmark.

Addressing the gathering, Principal Economic Adviser, Department for Promotion of Industry and Trade (DPIIT), Government of India, Rupa Dutta mentioned that B20 Conferences in the North East Region of India have been held in Manipur, Mizoram, Sikkim and now, in Nagaland. She stated that DPIIT which looks at promotion of industries and internal trade, has two engagement groups - the B20 and Start-Up 20. Pointing out that GI initiative, which is also part of DPIIT, has given tags to three farm products - the Naga Mirchi, the Naga Tree Tomato and the Naga Sweet Cucumber, she said that the Government is also taking steps to promote organic farming in the State. Another key initiative of DPIIT is 'One District, One Product, of which 11 districts of Nagaland have been selected. She also mentioned that the Government has launched Mission Organic Value Chain Development for North East Region, which aims at development of certified organic production in a value chain mode, and this can promote social entrepreneurship and start-ups. Rupa said that Nagaland has not only immense agro resources, but with a positive and progressing population available, Nagaland has good future potential in skill development, an area where the start-ups can do a lot of good works.

Delivering the keynote address, Minister of State, Ministry of External Affairs, Government of India, Dr. Rajkumar Ranjan Singh said that the hosting of B-20 event in Kohima is an outcome of Prime Minister's vision that through India's G20 Presidency, India in all its glory should be showcased to the world, and he highlighted that initiatives like Prime Minister Development Initiative

for North East Region (PM-DevINE) showcases the importance being attached to the development of North East Region by the Government as 'New Engine Growth of India.'

Dr. Singh expressed confidence that North East will become India's gateway to South East Asia and it will have seamless land connectivity with the heart of ASEAN and beyond once the India-Myanmar-Thailand trilateral highway is completed. He also stated that the Government is continuously working for seamless land and rail connectivity with Bangladesh. Pitching North East India to the business community to invest in, Dr. Singh stated that NE can be seen as a potentially dynamic region of the world, surrounded by ASEAN, Bangladesh, Nepal and Bhutan, with the youth from NE playing critical role in hospitality and care-giving sectors across India. With its rich human resource base, he said that NE can grow their business in NE and beyond, offering immense and relatively unexplored market opportunities.

Welcoming all the delegates and the participants, Chief Minister, Neiphiu Rio pointed out the great investment opportunities in the agriculture and allied sectors of the State, and urged everyone to consider exploring the immense possibilities in this sector. He also briefed on the huge potential for tourism industry, especially for those desiring a unique 'out of the box' experience. Rio said that, with a persistent zeal for learning new skills, coupled with the wide usage of the English language, the State's relatively young work force and a higher literacy rate than the national average, the State has an advantage especially in the services sector, and appealed to all to consider investing in this sector.

Chief Minister, Rio stated that over the past two decades, the State has opened up to the world, and it now offers huge untapped potential in several areas of trade and services to the outside world. Due to the lack of industrialisation in the past, there are large unexploited and unexplored natural resources available in the State, which provides tremendous opportunities especially for those who come early. He assured that the State is fully geared up to put in place all the requisite systems and the enabling policy frameworks for ensuring a robust exchange of investment and business opportunities and facilitating a rapid and sustained industrial development in the State. He invited all to experience and savour the unique culture, customs and traditions of the Nagas, while also exploring business opportunities for investing in several promising sectors and industries.

Chief Secretary, Nagaland, J. Alam, IAS highlighting the vast potential of the State, invited the business community to invest in the State assuring the Government's help in quick resolutions of issues that investors might face, adding that the State has a single window clearance system available through the National Portal, which is being further enriched. He added that the State's ingrained cultural ethos will ensure that contracts and agreements are honoured and enforced in letter and spirit.

CM RIO BRIEFS MEDIA ON G20 BUSINESS MEET

Addressing media persons at the Chief Minister's Office, Kohima on 5th April 2023, Chief Minister, Neiphiu Rio informed that Kohima is witnessing the convergence of 60 overseas delegates from 27 countries. The delegation includes diplomatic, focused

trade and business delegates.

The Chief Minister mentioned that Confederation of Indian Industry (CII) is facilitating the Business to Business and Business to Government meetings. He said the overseas business delegates are getting the opportunity to interact with the local industry during B2B and with the Government in the B2G sessions for potential investment, collaboration and tie-ups. He added that over 100 B2B and B2G requests were generated for interaction with Government Departments in Tourism, Commerce & Industries, Agriculture, Horticulture, Healthcare and Food Processing.

Rio also stated that the State Government is taking advantage of the presence of a large contingent of international delegates by making elaborate arrangements not to showcase investment and partnership opportunities, but also to provide a unique experience for the visiting delegates with an exposure to Nagaland's culture, cuisine, art, festivities and scenic beauty.

Chief Minister Rio said that Nagaland will benefit from the B20 Conference as it is strategically located and will help Nagaland develop as a base for boosting links with ASEAN countries. He mentioned that the trade potential of the State lies in its strength in agro & forest based, mining & minerals based and services based industries. He said the North East Region and Bangladesh have close ties and Nagaland is set to benefit from the cooperation. He stated that the State is open for potential tie-up in the areas of Tourism, IT, Agriculture and Infrastructure Development and with the participation of leading nations in these areas, it will help the State to push the economy to greater

heights. He added the B20 conference will usher new opportunities for the people of Nagaland.

Minister of State, Ministry of External Affairs, GoI, Dr. Rajkumar Ranjan Singh said 'Diversity is the strength of the North Eastern States' with more than 250 ethnic tribes domiciled in the region. ALL PRIVATE HOSPITALS DECLARED

TOBACCO FREE ZONE

As decided during a coordination meeting with the Nagaland Private Practitioners Association under the chairmanship of Commissioner & Secretary, Y. Kikheto Sema, IAS on 4th April 2023, all private hospitals in the State have been declared as 'Tobacco Free Zone' with effect from 11th April 2023. It may be also stated here that, the Department had earlier declared all Government Hospitals/ Health Care, Health offices in the State as 'Tobacco Free Zone' since 1st February 2023.

Recollecting the relentless contribution of the private hospitals in the fight against COVID-19 during the pandemic, Kikheto conveyed appreciation of the Government to the private hospitals for their collaboration with the Government in various healthcare services. He also appealed to the private hospitals to continue to work together even in the days to come, and to participate in the health information collection system of the department, so that health information from both public

and private sector is captured on real time.

Further, Kikheto Sema stated that with the aim to provide quality medicines at affordable prices to the masses, the Government of India has launched Pradhan Mantri Bharatiya Janaushadhi Pariyojana campaign under the Department of Pharmaceuticals. He urged the private hospitals to come on-board the scheme and use generic medicines which is available through special outlets known as Pradhan Mantri Bharatiya Janaushadhi Pariyojana Kendra, so as to reduce the healthcare expenditure of every citizen particularly for the poor patients.

Responding to the appeal by the Commissioner & Secretary on private practice by government doctors, nurses or other employees, the Nagaland Private Practitioners Association assured not to engage employees of the Government in private hospitals in compliance to the provisions of Nagaland Health Care Establishment Act 1997.

The Department has assured the Association to fast track the process of approval and renewal of licences under the Act and as a measure to promote the Policy on 'Ease of Doing Business', the Department will develop a portal to enable online submission of application and will also discuss with respective authorities on various statutory requirements for registration of hospitals for speedy approvals.

In connection with Ayushman Bharat PM-JAY & Chief Minister's Health Insurance Scheme (CMHIS), the Department is working on revision of the health benefit package rates so that it is rational and attractive to private hospitals within and outside the State, thereby enabling the beneficiaries access to wide range of

hospitals. Meanwhile, the Association has also assured to extend services to the beneficiaries of both schemes.

The coordination meeting was attended by senior members of Nagaland Private Practitioners Association led by its President, Dr. Victo Wotsa and from the Department, Principal Director, Dr Vibeitunuo M. Sachu and senior officials.

**ORIENTATION PROGRAMME
FOR LEGISLATORS**

A two-day orientation programme for legislators was organized by the Parliamentary Research and Training Institute for Democracies (PRIDE) Lok Sabha Secretariat at Conference Hall, Nagaland Legislative Assembly Secretariat, Kohima on 26th April 2023.

Speaker, Nagaland Legislative Assembly (NLA), Sharingain Longkumer, in his inaugural address, said that in a 60 Member House of the 14th NLA, there are 29 new Members from different backgrounds including two women legislators, who are ready to take on new challenges and responsibilities. He said that as lawmakers, they all need to keep themselves abreast of the changing trends and educate themselves to enable them to discharge their duties and responsibilities more effectively. The legislators are the bridge between the public and the government, their primary responsibility is to find solutions to people's problems and to make the legislature effective, it is necessary that the people's representatives should be sensitive to the problems of the people and work towards fulfilling their hopes and aspirations. To be an effective legislator, one should understand the Constitution of India, the Rules of Procedure and Conduct of Business in the House, and the practices and conventions of the House, as a pre-requisite in their sincere effort towards public service.

The Speaker said that he is proud to announce that Nagaland created history by becoming the first State Assembly in the country to implement the National e-Vidhan Application (NeVA) programme and with the collective support of the government

officials, the State is moving towards becoming completely paperless in the early future.

The Resource Persons from PRIDE, Lok Sabha Secretariat were Vinay Kumar Mohan, Joint Secretary, Ravindra Garimella, Former Joint Secretary, Santosh Kumar, Director, Partha Goswami, Additional Director and Sovan Kumar Ganguli, Additional Director.

The second day of the orientation programme for legislators of the NLA concluded on 26th April 2023. Delivering the valedictory address, Minister for Power and Parliamentary Affairs, K. G. Kenye stated that despite the late start, the State has been doing its best to catch up with the rest of the country in parliamentary affairs. He highlighted on some of the historical political events that had happened in the State. Sharing on the anti-defection law, Kenye stated that Nagaland was the first state to test the Act. He said that over the years, new versions of laws and acts have evolved without compromising the basics, which he said is the beauty of the Indian democracy.

WORLD MALARIA DAY OBSERVED

KOHIMA:

The State Vector Borne Disease Control Programme organized World Malaria Day, with the theme, 'Time to Deliver Zero Malaria: Invest, Innovate, Implement,' on 25th April 2023 at Health & Family Welfare Directorate, Kohima.

Principal Director, H&FW, Dr. Vibeituouno M. Sachu said that World Malaria Day is observed every year on the 25th of April to recognize global efforts to control malaria. The National Centre for Vector Borne Disease Control in the State

has been progressing steadily toward a malaria-free Nagaland. She said that there is a sharp decline in malaria morbidity and mortality, and there have been no malaria deaths since 2017, from 75 deaths in 2006. Sachu said that this is a major step towards their goal for the elimination of malaria, but there are many more things to be done in order to have a Malaria Free State.

In recent years, three districts namely Mokokchung, Longleng, and Zunheboto have been successful in malaria control programmes with no malaria-positive cases reported. To successfully eliminate malaria by 2030, the Principal Director said that the Department harnesses the existing approaches and innovations such as Highly Sensitive Rapid Diagnostic Testing Kits, Long Lasting Insecticidal Bed Nets, Advanced Anti-Malaria Drugs, and Advanced Data Management Systems.

Commissioner & Secretary, H&FW, Y. Kikheto Sema, IAS said that as the State observes World Malaria Day, there is a need to create awareness about the devastating effect on health, social and economic consequences due to malaria. To achieve this goal, he added that we need political support and cooperation from the line departments and institutions, the public, NGOs, and faith-based organizations.

Three Best Performing Accredited Social Health Activists (ASHAs) under Kohima district were felicitated - Chichanbeni, Lerie SC, Temsujungla, AG, SC, and Keneiphrenuo, Rusoma, SC.

State Programme Officer, NVBDCP, Dr. Neisakho Kere presented the programme overview and also a short demonstration on malaria eradication.

Dr. K. Limatula Ao, CMO, Peren stated that everybody needs to keep the surroundings clean and encouraged to raise awareness and give an effort to control and prevent eventually eradicated malaria in the district.

Dr. Hedungkiebe, DVBO, Peren presided over the observation of World Malaria Day, presented the Malaria Elimination Programme Review and highlighted early diagnosis and radical treatment and case-based surveillance. He also stated that the ASHA performs tests on individuals in the village or when the patients visit HUs, they are provided with free testing and treatment.

DIMAPUR:

World Malaria Day was held at the CMO's Conference Hall in Dimapur on 25th April 2023.

Deputy Commissioner and Chairman of DTF for Malaria Elimination, Sachin Jaiswal IAS said malaria is a global concern however improvement has been seen in the past few years. He said that in Dimapur, malaria cases have been declining and stressed the need to change to a cleaner environment and lifestyle. He also urged the department to be more creative and give more awareness programmes.

A brief highlight of the programme was delivered by Peter Sangtam (District VBD Consultant). He stated that the Elimination of Malaria is to be done in all blocks by 2027, interrupting indigenous transmission of malaria throughout the district and preventing the re-establishment of local transmission of malaria in an area where it has been eliminated, and maintaining district malaria-free status by 2030 and beyond.

Felicitation of the Best Performing ASHAs were awarded to Latika, Katoli, and Kughali Achumi.

MOKOKCHUNG:

World Malaria Day was observed on 25th April 2023 at the CMO's Conference

Hall Mokokchung.

Speaking on the occasion, Deputy Commissioner and Chairman, District Task Force for Malaria Elimination, Shashank Pratap Singh, IAS maintained that there is no scope for complacency when it comes to diseases, therefore, everyone needs to be alert and carry on with the awareness programmes. The DC said that children are more vulnerable to malaria and all other diseases. Mentioning the importance to educate and making the parents aware, he asked the concerned department to carry out the task of visiting the household in the villages so as to promote awareness. He further said that community support is the key factor to contain the disease and said all the PHCs should also be able to treat the disease.

In the programme, the three Best Performing ASHAS were felicitated - Chubatola (Chakba), Sunepmongla (Longmisa), and Toshinara (Lakhuni).

TUENSANG:

Tuensang district observed World Malaria Day on 25th April 2023 at CMO's Conference Hall Tuensang.

Nokchasashi, Deputy Commissioner, Tuensang said that since there is only one hospital in the district, manpower needs to be rationalized due to the shortage of staff. As malaria is under the elimination phase, he encouraged the medical staff led by the CMO to continue working hard to achieve zero malaria in the district.

The significance of World Malaria Day was presented by Dr. Alemba R. Jamir, Sr. Specialist District Hospital Tuensang. Dr. Jamir addressed the status of malaria in the district and also shared the importance

of case-control in the district. Felicitation for Best Performing ASHAs in the district was awarded to Akum from Sangsangnyu village, Tonching Yangmai from Hakchang village, and Imtitula from Alisopur village.

Scientist 'B' Nagaland Pollution Control Board, Yanathung Kithan addressing at the National Air Clean Programme held at Conference Hall, Don Bosco School, Dimapur on 10th April 2023.

Dhobinala, Kuda-C, Nagarjan, and Kohima has four (4) manual Monitoring Stations opposite NST Office, PWD Junction, High School Junction, Upper Midland. While as of waste management scenario in Nagaland, there is only one scientific treatment plant at Kohima having 50 TPD Capacity, funded under the Asian Development Bank assisted NE Region Urban Development Programme funded through the Ministry of Housing and Urban Affairs.

Kithan highlighted that the annual average concentration of RSPM which the Government has set is 60, where below 60 shows the air quality is good. But as for Dimapur city, the consecutive years from 2019-2022 have shown 79, 78, 99, and 97, which is increasing. While RSPM for Kohima from 2019-2022 has shown 91, 89, 77, and 72 which shows an improvement. The air quality of Kohima and Dimapur city has been placed under non-attainment cities with respect to particulate matter (PM10), which shows a serious concern, he added.

Kithan further pointed out that under National Green Tribunal Order it is directed to impose a penalty to violators, concessioner, ULB, and any person or body responsible for such burning shall be liable to pay environmental compensation of Rs 5000, in case of simple burning, while Rs 25,000 in case of bulk burning. He informed that the Central Government launched National Clean Air Programme (NACP) as a long-term, time-bound, national level strategy to achieve the targets and it has aimed at a 40% reduction in particulate matter by 2026.

Yanthan urged all the individuals, local bodies, gram panchayat, and village councils to ensure that the open burning of plastic waste does not take place. Air

pollution is affecting people throughout their lifetime and it is the sole responsibility of not only one department but the whole community and individual to come together to improve the quality of the environment, he added.

NEWLY CONSTRUCTED BUILDING OF GMS, T. KHEL, KOHIMA VILLAGE INAUGURATED

The inauguration of the newly constructed building of Government Middle School, T. Khel, Kohima village was held on 15th April 2023 with Principal Director, School Education, Thavaseelan K, IAS as the chief guest.

Thavaseelan congratulated the community leaders, the visionaries and the pioneers who had understood the importance of education, and complimented the community for their support and dedication to uplift the school.

Thavaseelan also highlighted about the NECTAR project and the activities of the School Education Department and the reforms to be taken up, stating that the

School Education Department, right from the Advisor to the teachers are committed and actively working for the betterment of the students. He mentioned that the Department is focusing on five key pillars of interventions to make government schools better. The target is to make the government schools the first choice of students and parents, he noted, while elaborating on the five pillars.

The first pillar is foundational numeracy and literacy. Any number of interventions at a later point in time is simply not going to have the same intended effect if you do not have the foundation, Thavaseelan said. The second pillar, he informed, is to bridge the gap between what is there and what is needed, concerning various aspects of infrastructural requirement of the schools. Third focus area is combination of curriculum, pedagogy and assessment, he added. The curriculum includes facing adversaries, entrepreneurship, financial literacy, pre-vocational interventions. The fourth pillar will focus on children with special needs, not only in terms of physical but mental abilities, he said. The final pillar is 'vocationalisation of education,' with the understanding that self-employment is critical in the future.

Convenor, Er. Kelhousinyii Solo, gave a brief highlight about the school stating that the Tsütuonuomia Khel School was established by a few educated persons in the late 1930s to impart education to students, and the School site was generously donated by Late Zelhoulie Sekhose, a man who dreamt of an educated generation. Thereafter the School was taken over by the Government in 1946. He mentioned that the School has produced many eminent personalities and leaders from the Khel. The School celebrated its Golden Jubilee

in 1996. With the recent upgradation of the School from GPS to GMS, he stated that the School has been requiring better infrastructure (additional classrooms) and facilities such as computers, projectors, internet to impart digital literacy, etc. Hence the noble project was proposed in the year 2017 by the Tsütuonuomia Khel Council to commemorate the Platinum Jubilee in the year 2021 through people's contribution, especially from the alumni to give better education to the upcoming generations under the project named 'Give Back to Society.'

B20 MEET KOHIMA 2023

(A DIPR feature by Morotsung, IA)

The Group of Twenty (G20) comprises of 19 countries, namely Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Republic of Korea, Mexico, Russia, Saudi Arabia, South Africa, Türkiye, United Kingdom, and United States and the European Union. The G20 Members represent around 85% of the global GDP, over 75% of the global trade, and about two-thirds of the world's population. G20 is the premier forum for international economic cooperation and it plays an important role in shaping and strengthening global architecture and governance on all major international economic issues.

The G20 was founded in 1999 after the Asian financial crisis of 1997-98, as an informal forum for the Finance Ministers and Central Bank Governors of the most important industrialized and developing economies to discuss international economic and financial stability. The G20 however was upgraded to the level of Heads of State/Government in the wake of the global economic and financial crisis of 2007, and in 2009, when it became apparent that the necessary crisis coordination would only be possible at the highest political level.

The G20 Summit is held annually, under the leadership of a rotating Presidency. The forum initially focused largely on broad macroeconomic issues, but it has since expanded its agenda to inter-alia include trade, climate change, sustainable development, health, agriculture, energy, environment, climate change, and anti-corruption. The G20 does not have a permanent secretariat or staff. Instead, the G20 Presidency rotates annually among the members and is selected from a different regional grouping of countries. India, from Group 2, holds the current Presidency

of the G20 from 1st December 2022 to 30th November 2023.

The Business 20 (B20) is the official G20 dialogue forum with the global business community. Established in 2010, B20 is among the most prominent Engagement Groups in G20, with companies and business organizations as participants. The B20 leads the process of galvanizing global business leaders for their views on issues of global economic and trade governance and speaks in a single voice for the entire G20 business community.

The theme for the B20 India is R.A.I.S.E which stands for Responsible, Accelerated, Innovative, Sustainable, Equitable Businesses.

Accelerating business practices constitute the set of practices that allow private enterprises to derive sustainable economic advantage and scale it to unprecedented heights in an optimal manner. B20 nations shall adopt and encourage such practices in order to enhance the growth of private sector and propel economic prosperity for all economies.

Innovative business practices, as adopted by the B20 nations, are capable of generating new processes, ideas, services, and products that can bring a transformational shift in the business ecosystem through an increased focus on technological development, research & development, automation and artificial intelligence, digital transformation and data-enabled business models for greater efficiency and competitiveness.

Equitable business practices are greatly emphasised under the B20 Agenda to foster inclusive growth and thus, follow two basic principles - (i) Principle of 'opportunities for all' under which the minority groups or

those underserved and underrepresented have an equal chance of participation in the workforce irrespective of their caste, colour, race, gender, sex or ethnicity and (ii) Principle of 'inclusiveness' wherein the economic benefits of businesses are fairly distributed among all.

B20 India will operate through Task Forces and Action Councils in streamlining the B20 strategic vision and translating it into policy deliverables on key topics of the global economic agenda. The priority areas will be discussed and deliberated during B20 India under seven Task Forces in the areas of:

- Inclusive GVCs for Resilient Global Trade and Investment.
- Future of Work, Skilling and Mobility.
- Digital Transformation
- Financing for Global Economic Recovery.
- Financial Inclusion for Economic Empowerment.
- Energy, Climate Change and Resource Efficiency.
- Tech, Innovation and R&D.

The B20 Meet in Kohima which was held from 4th to 6th April 2023, saw discussions on Opportunities for Multilateral Business Partnerships in Agriculture, Food Processing, IT and Tourism. With the global agriculture market growing by demand and volume, the sector is projected to increase by billions of dollars annually. Global market demand for crop production, farming activities, packaging, distribution channels, and trade volumes are increasing to meet the needs of the growing population. India today is a food-surplus nation that focuses on export-oriented country business in the sector and is on the course to become the 'Food basket of the world.' The abundant natural assets and resources such as topography, the rich biodiversity, forest cover and fertile land offers

an ideal opportunity for developing India as a global agro-processing hub. The Conference would focus on opportunities for multilateral business partnerships in agriculture and food processing sectors.

The B20 Meet 2023 in Kohima will provide a huge opportunity for the State to market its potential in agriculture as well as its ever growing tourism industry. When it comes to agriculture, Nagaland has tremendous potential as almost 60 per cent of the population is engaged in the agri and allied sector. During the COVID-19 pandemic, the demand for organic food went up as consumers perceived them as being healthier and good for immunity. However, otherwise too, demand for organic food is increasing at a continuous pace. According to an Expert Market Research report the Indian organic food market stood at a value of USD 849.5 million in 2020. For the forecast period of 2021-2026, the trend in the organic food market is expected to grow at a Compound Annual Growth Rate (CAGR) of about 20.5% to reach about USD 2601 million by 2026.

Nagaland, known for its rich biodiversity and is gradually making its entry into the organic farming market and efforts are being made to promote organic farming in the State. Nagaland has potential for promotion of organic farming as farmers has been practicing traditional system of agricultural without the use of external inputs since its inception. Naga farmers adopt an age-old traditional cultivation system called shifting cultivation. The present agricultural practice of Nagaland is organic by default, as the state and the region did not make impact by the wave of green revolution across India.

The B20 Meet will thus provide a much needed international platform for the State to forge partnerships and pursue long lasting business models that will in turn give a much needed boost to the state economy.
